SUMMARY

I am a full-stack developer with over 2.5 years of commercial experience specializing in the development of single-page and full-stack web applications and services. My primary focus has been on creating various types of web services, including MVP apps, CRM systems, mail service, portal, landings, ecommerce and platforms in different directions.

EXPERIENCE

Frontend Engineer at Inquire (EarthLink.net) 06/2022 - 04/2023 Atlanta, GA, US

- Utilized React and TailwindCSS to design and maintain user interface of several company projects including mail service, account management, portal, CRM systems for customers, MVP applications, and raw projects written from scratch.
- Maintain and debug legacy code, do code review, develop and implement new features to web applications according to CI/CD pipeline.
- Conduct business correspondence in English with teams from the US.

Tech stack: Javascript, Typescript, React, Redux, Redux-thunk, Redux-toolkit, GraphQL, REST API, TailwindCSS, Styled-components, Ramda, Formik, Yup.

Full Stack Developer (Freelance) 12/2020 - 06/2022 Kyiv, Ukraine

- Develop and implement new features from scratch to SPA and full stack applications for different customers including healthcare, fitness, cleaning, provision of services, ecommerce project etc.
- Conduct correspondence in English with teammates and foreign customers.

Tech stack: Javascript, Typescript, React, Redux, Styled-components, Vue, Vuex, TailwindCSS, REST API, Express.js, Nest.js, Fastify.js, GraphQL, MongoDB, PostgreSQL, Mongoose, Sequelize, Prisma.

EDUCATION
